

# Biomedical Research Lab Safety Agreement

Name:

Department:

Date:

## Lab Safety Guidelines

- Follow all safety protocols and standard operating procedures at all times.
- Wear appropriate personal protective equipment (PPE) in the laboratory.
- Report all accidents, spills, or unsafe conditions immediately.
- Do not eat, drink, or apply cosmetics in lab areas.
- Properly label and store all chemicals, reagents, and samples.
- Dispose of biological and chemical waste according to laboratory policies.
- Keep workspaces clean and organized.
- Ensure familiarity with the location and use of safety equipment (e.g., eyewash stations, fire extinguishers).
- Complete all required safety training before beginning lab work.
