

Non-invasive Observation Study Protocol Form

1. Study Details

Study Title

Principal Investigator

Institution / Department

Contact Email

Date

2. Study Purpose & Background

Background & Rationale

Study Objectives

3. Study Design

Study Site(s)

Duration of Study

Observation Methods

4. Participant Information

Population to be Observed

Inclusion Criteria

Exclusion Criteria

5. Data Collection

Type of Data Collected

Data Collection Tools / Instruments

Data Handling & Confidentiality

6. Ethical Considerations

Consent Process

Potential Risks

Potential Benefits

7. Other Information

Additional Notes
