

Genetic Research Ethics Review Application

1. Project Information

Project Title

Principal Investigator(s)

Institution/Affiliation

Email Address

Phone Number

Co-Investigators

Funding Source

2. Project Overview

Background and Rationale

Objectives

Research Questions/Hypotheses

Study Design & Methods

Duration of Study

3. Participants

Population & Recruitment

Inclusion Criteria

Exclusion Criteria

Estimated Number of Participants

4. Sample Collection & Handling

Type of Genetic Material (e.g., blood, saliva)

Collection Procedure

Sample Storage & Security

Will samples be shared with other researchers?

5. Ethical Considerations

Consent Process

Anonymization/De-identification Procedures

Potential Risks to Participants

Benefit to Participants/Community

Dissemination of Results

☐ I confirm that all personal health information is protected in accordance with applicable privacy laws.

6. Additional Information

List Attachments (consent forms, questionnaires, etc.)

Other Relevant Details
