

# Genetic Research Ethics Approval Request Form

---

## 1. Project Information

Title of Project

Principal Investigator Name

Department / Institution

Contact Email

Contact Phone

Co-investigators / Collaborators

## 2. Project Description

Brief Summary of Research

Objectives

Scientific Background & Rationale

## 3. Genetic Material

Source(s) of Genetic Material

Type of Genetic Material

Collection, Storage, and Management Details

4. Participant Information

Population (e.g., number, characteristics)

Recruitment Method

Inclusion/Exclusion Criteria

5. Consent Process

Describe Informed Consent Procedure

Will participants be able to withdraw consent?

6. Privacy & Confidentiality

Describe data protection measures and anonymization process

7. Potential Risks and Benefits

Potential Risks to Participants

Potential Benefits to Participants / Society

## 8. Data Sharing and Results Dissemination

Will genetic data/material be shared?

If yes, specify with whom and under what conditions

Plans for dissemination of results

## 9. Additional Information

---

Date

Principal Investigator Signature
