Summary

Please summarize the main contribution(s) of this paper.

Major Comments

Describe the major strengths and weaknesses of the manuscript.

Minor Comments

List any minor issues or suggestions for improvement.

Technical Soundness

Is the methodology technically sound and appropriate?

Significance & Novelty

Comment on the significance and novelty of the work.

Clarity

Is the paper clearly written and well organized?

Reproducibility

Are there sufficient details to reproduce the results (methods, data, code)?

Ethics Statement

Are ethical issues appropriately addressed (e.g., data privacy, human/animal subjects)?

Overall Recommendation

Recommendation

Justification for Recommendation
