## Commitment Statement

We, the undersigned, hereby commit to supporting and implementing plastic-free policies and practices in our tourism business operations. We acknowledge the adverse environmental impacts of single-use plastics and agree to take meaningful actions towards reducing and eliminating their usage.

Our pledge is to:

- Identify and gradually eliminate single-use plastics from our services and facilities.
- Engage staff, suppliers, and guests in plastic-free initiatives and awareness.
- Replace plastic products with sustainable, reusable, or compostable alternatives where possible.
- Properly manage waste to ensure recyclable materials do not end up in landfills or waterways.
- Continuously monitor, report, and improve progress towards our plastic-free goals.

We understand that achieving plastic-free operations is a continuous journey and commit to regular evaluation of our efforts.
