

Green Building Site Sustainability Report

Project Information

Project Name

Location

Report Date

Prepared By

1. Site Overview

Site Description

Site Area (m²)

Site Features

2. Resource Management

Water Efficiency Measures

Energy Conservation Methods

Waste Management Strategies

Material Sourcing & Reuse

3. Biodiversity & Ecology

Habitat Protection

Landscaping Practices

Native Species Usage

4. Pollution Prevention

Air Pollution Controls

Soil & Water Protection

Noise & Light Management

5. Community & Accessibility

Community Engagement Actions

Sustainable Transport Options

Accessibility Considerations

6. Compliance & Certification

Environmental Certifications Sought

Relevant Regulations & Standards

7. Summary & Recommendations

Key Findings

Recommendations
