

Green Building Sustainability Site Survey

Project Name

Site Address

Surveyor Name

Date of Survey

Site & Location

Geographical Coordinates

Site Area (m²)

Existing Building(s) on Site

Topography Description

Site Zoning

Water Management

Nearby Water Bodies

Water Conservation Systems Present

☐ Rainwater Harvesting ☐ Greywater Recycling ☐ Low-flow Fixtures ☐ Other

Energy

Existing Renewable Energy Installations

Passive Design Features Noted

Main Sources of Energy

Transportation

Access to Public Transport

Bicycle Storage Facilities

Electric Vehicle Infrastructure

Materials

Locally Sourced Materials Present

Waste Management Practices

Biodiversity

Existing Green Spaces on Site

Native Species Present

Invasive Species Noted

Additional Observations

Comments & Recommendations
