Drawing Checks

1. Is the drawing complete (views, dimensions, details)?

2. Are all tolerances specified and appropriate?

3. Are material notes and finish requirements included?

4. Are symbols and conventions per standards?

5. Are all references (parts, assemblies, standards) clear?

6. Are dimensions and annotations clear and legible?

7. Does the drawing match the design intent/requirements?

8. Are there errors, omissions or duplications?
