

Energy Efficiency Process Evaluation Form (Engineering)

Project Information

Project Name

Project ID

Site Location

Date

Evaluator Details

Name

Position/Title

Organization

Contact Information

Process Description

Briefly describe the process being evaluated

Existing Conditions

Existing equipment/process details

Current energy consumption (if known)

Proposed Improvements

Describe proposed energy efficiency measures

Expected energy savings

Other anticipated benefits

Data & Analysis

List data sources and tools used for evaluation

Summary of energy analysis/calculations

Barriers & Risks

Potential issues, risks or barriers

Recommendations

Summary of recommendations

Additional Notes

Approval

Evaluator Signature

Date
