## **Engineering Project Lessons Learned**

| Project Title                 |
|-------------------------------|
|                               |
| Project Manager               |
|                               |
| Date                          |
|                               |
|                               |
| Project Overview              |
|                               |
|                               |
|                               |
| Successes                     |
|                               |
| What Went Well                |
|                               |
|                               |
| Challenges                    |
| What Could Have Gone Better   |
|                               |
|                               |
| Root Cause Analysis           |
|                               |
|                               |
|                               |
| Recommendations               |
|                               |
| Actions to Sustain Successes  |
|                               |
| Actions to Address Challenges |
|                               |

| Additional Notes |  |  |  |
|------------------|--|--|--|
|                  |  |  |  |
|                  |  |  |  |
|                  |  |  |  |
|                  |  |  |  |
|                  |  |  |  |
