

# Warehouse Structural Reinforcement Calculation Form

## Project Information

Project Name

Location

Engineer

## Existing Structure Details

Building Type

Dimensions (L x W x H)

Structural Material

Year Constructed

Existing Loads (kN/m<sup>2</sup>)

## Reinforcement Requirements

Required Load Capacity (kN/m<sup>2</sup>)

Area to Reinforce (m<sup>2</sup> or description)

Type of Reinforcement

Reinforcement Method

## Materials and Calculations

Materials

Calculation Notes

Remarks / Notes
