

# Power Quality Analysis Report

## General Information

Report Date

Location

Prepared By

Customer / Site

Equipment / Asset

## Measurement Details

Measurement Date

Duration (hours)

Measuring Device

Device Serial Number

Connection Point

## Measured Parameters

Voltage (V)

Current (A)

Frequency (Hz)

Power Factor

THD (%)

Unbalance (%)

Other Observed Issues

## Events Summary

Sags/Swells

Interruptions

Transients

Harmonics

## Analysis/Conclusion

Comments & Recommendations
