

Geotechnical Feasibility Report Submission

Project Name

Project Location

Client / Owner

Date of Submission

Prepared By

1. Introduction

Project Description

Objectives of the Report

2. Site Information

Site Location & Access

Site Topography & Existing Conditions

3. Geotechnical Investigation

Summary of Field Investigations

Subsurface Conditions

Laboratory Testing Summary

4. Geotechnical Analysis

Soil Properties

Groundwater Conditions

Potential Geohazards

5. Recommendations

Foundation Recommendations

Earthwork Considerations

Site Preparation Measures

6. Conclusions

Summary of Findings

Feasibility Statement

7. Attachments / Appendices
