

Home Renewable Energy Feasibility Worksheet

1. Property & Location

Address

Property type

Available Area for Installation (sq ft)

2. Energy Consumption

Average monthly electricity use (kWh)

Average monthly utility bill (\$)

3. Renewable Energy Resources

Is your roof suitable for solar panels?

Wind resource availability

Other renewable resource(s) possible

4. Site Assessment

Roof orientation

Obstructions (trees, buildings, etc.)

5. Budget & Incentives

Approximate budget for installation (\$)

Available incentives/rebates

6. Notes & Questions

Additional notes or questions
