

Wind Turbine Noise Impact Assessment Form

1. Site Information

Site Name

Location

Assessment Date

Assessor Name

2. Project Details

Number of Turbines

Type/Model

Hub Height (m)

Rated Power (kW)

3. Nearby Sensitive Receptors

Type (Residential, School, etc.)

Distance to Nearest Receptor (m)

Description

4. Existing Ambient Noise

Daytime dB(A)

Nighttime dB(A)

Measurement Method

5. Predicted Noise Levels

At Nearest Receptor dB(A)

Modelling Method

Comments

6. Assessment Summary

Summary of Impacts

Recommended Mitigation Measures
