

HVAC System Efficiency Inspection Sheet

Facility Name

Inspector Name

Inspection Date

Equipment ID

Location

System Overview

Manufacturer

Model

Serial Number

System Type

Cooling Capacity (BTU/hr)

Heating Capacity (BTU/hr)

Inspection Checklist

Inspection Item	Condition	Comments
Thermostat Operation		
Air Filter Condition		
Refrigerant Level		
Compressor Operation		
Coil Condition (Evaporator/Condenser)		
Fan Motor/Blower Operation		
Ductwork Condition		

Electrical Connections	<input type="text"/>	<input type="text"/>
Temperature Differential (Supply/Return)	<input type="text"/>	<input type="text"/>
System Controls	<input type="text"/>	<input type="text"/>

Efficiency Measurements

Parameter	Measured Value	Unit
Supply Air Temp	<input type="text"/>	°F
Return Air Temp	<input type="text"/>	°F
Outdoor Temp	<input type="text"/>	°F
Current Draw	<input type="text"/>	Amp
Voltage	<input type="text"/>	V
Static Pressure	<input type="text"/>	in WC
Other	<input type="text"/>	<input type="text"/>
