

School Energy Efficiency Walkthrough Form

School Information

School Name

Address

Date of Walkthrough

Conducted By

Lighting

Describe lighting types (e.g., LED, fluorescent):

Are lights switched off when not needed?

Additional observations on lighting:

Heating, Ventilation, and Air Conditioning (HVAC)

Describe HVAC systems and their condition:

Thermostat settings and controls:

Any observed inefficiencies or issues?

Windows & Insulation

Window conditions (seals, drafts, etc.):

Insulation quality observations:

Equipment & Appliances

Type and status of equipment/appliances:

Are devices powered down when not in use?

Water Usage

Observations on leaks, usage, or efficiency:

General Observations & Recommendations

Other observations:

Energy efficiency improvement recommendations:
