

# Industrial HVAC Energy Efficiency Inspection Form

## Facility Information

Facility Name

Location

Date of Inspection

Inspector Name

## HVAC Equipment Information

Equipment Type

Manufacturer

Model Number

Serial Number

Installation Year

HVAC System Capacity (ton/kW)

## Inspection Checklist

Thermostat settings & operation

Air filters condition

Ductwork integrity & insulation

Refrigerant levels

Fan & motor operation

Compressor condition

Electrical connections & controls

Overall equipment cleanliness

Energy-saving opportunities observed

Recommendations & Notes

Recommendations for Improvements

Additional Notes

Inspector Signature

Signature

Date
