

Manufacturing Plant Energy Benchmarking Sheet

1. Plant Information

Plant Name

Location

Industry Type

Reporting Year

Product(s) Manufactured

Annual Production Output (unit)

2. Energy Consumption

Energy Source	Annual Consumption	Unit
Electricity		
Natural Gas		
Coal		
Diesel/Fuel Oil		
Other		

3. Benchmarking Data

Parameter	Your Plant Value	Benchmark Value	Unit
Total Energy Intensity			
Electricity Intensity			
Thermal Energy Intensity			
CO ₂ Emission Intensity			

4. Notes & Observations
