## Manufacturing Plant Demand Response Enrollment

| Plant Name                                    |   |
|-----------------------------------------------|---|
|                                               |   |
| Location                                      |   |
|                                               |   |
| Contact Name                                  |   |
|                                               |   |
| Contact Email                                 |   |
|                                               |   |
| Contact Phone                                 |   |
|                                               |   |
| Facility Type                                 |   |
| Shift Schedule                                | • |
| Silit Schedule                                | _ |
| Average Electrical Demand (kW)                | _ |
| Avorage Electrical Defination (KVV)           |   |
| Peak Electrical Demand (kW)                   |   |
| Foundation Politation (KVV)                   |   |
| Maximum Reducible Load (kW)                   |   |
| Martina Treducine Zead (NY)                   |   |
| Minimum Notice Required for Reduction (hours) |   |
|                                               |   |
| Participation Constraints                     |   |
|                                               |   |
|                                               |   |
| Additional Comments                           |   |
|                                               |   |
|                                               |   |
