

Low-Voltage Microgrid Interconnection Data Sheet

1. Project Information

Project Name

Project Location

Owner/Customer Name

Contact Number

2. Interconnection Facility Details

Utility Company

Point of Common Coupling (PCC)

Service Voltage (V)

Phase

3. Microgrid System Information

System Description

Total Capacity (kW)

Operating Mode

4. Distributed Energy Resources (DER)

Generator Type

DER Capacity (kW)

Inverter Information

Inverter Rating (kW/kVA)

5. Protection & Controls

Anti-islanding Protection

Relay Types

Control System Description

6. Additional Remarks

Remarks
