

# Warehouse Insulation Efficiency Checklist

## General

- ☐ Insulation material inspected for damage or degradation
- ☐ No obvious gaps or exposed areas in insulation
- ☐ Vapor barriers intact and in place
- ☐ Appropriate insulation rating for climate

## Walls and Roof

- ☐ All wall insulation securely fixed and continuous
- ☐ Roof insulation undamaged and evenly distributed
- ☐ No signs of condensation or moisture accumulation

## Doors and Windows

- ☐ Doors and windows properly sealed and insulated
- ☐ No noticeable drafts at entry points
- ☐ Double-glazing or insulated windows in place

## Ceilings and Floors

- ☐ Ceiling insulation complete, no gaps
- ☐ Floor insulation (if required) properly installed

## HVAC & Vents

- ☐ Insulation around ducts and vents secure
- ☐ Ductwork inspected for leaks or loose insulation

Notes / Observations:
