

Industrial Equipment Energy Efficiency Checklist

Equipment Information

Equipment Name	<input type="text"/>
Location/Area	<input type="text"/>
Asset ID / Serial No.	<input type="text"/>
Inspection Date	<input type="text"/>
Inspected By	<input type="text"/>

Efficiency Checklist

Check Item	Yes / No	Notes
Equipment is operating within recommended parameters	<input type="text"/>	<input type="text"/>
Evidence of regular preventive maintenance	<input type="text"/>	<input type="text"/>
Absence of leaks (air, gas, oil, steam, etc.)	<input type="text"/>	<input type="text"/>
Proper insulation on pipes and ducts	<input type="text"/>	<input type="text"/>
Controls and sensors are functioning correctly	<input type="text"/>	<input type="text"/>
No unusual noise or vibration	<input type="text"/>	<input type="text"/>
Variable speed controls operating as specified	<input type="text"/>	<input type="text"/>

Observed Issues

Recommended Actions
