

Compressed Air System Efficiency Log

General Information

Date		Location/Building	
Logged By		System/Compressor ID	

Compressor Operation Data

Start Time	Stop Time	Total Run Hours	Compressor Pressure (bar/psi)	Compressor Output (cfm/l/min)	Ambient Temperature (°C/°F)	Power Consumption (kW)

System Checks

Air Leaks Detected	Drain Trap Operation	Filter Differential Pressure	Unusual Noises/Vibration	Notes/Actions Taken

Remarks
