

# Steam System Performance Assessment

## General Information

Facility Name

Location

Date of Assessment

Assessor(s)

## Steam System Overview

Boiler Type

Operating Pressure (bar/g)

Steam Generation Rate (kg/hr)

Fuel Type

Annual Operating Hours

## Key Components

Component	Description	Condition	Notes
Boilers			
Steam Distribution			
Condensate Recovery			
Deaerator			

# Performance Data

Boiler Efficiency (%)

Fuel Consumption (per year)

Make-up Water (m³/year)

Steam Losses (%)

## Observation & Opportunities

Observations

Improvement Opportunities

## Summary & Recommendations
