Research Team Members

Animal Information

Species	Number	Supplier/Source	Age/Weight	Housing Conditions

Procedures and Welfare Assessment

Describe all procedures to be performed on animals (including anesthesia, surgery, blood collection, etc.)

Identify potential risks to animal welfare (pain, stress, suffering, distress, etc.)

Severity Classification (e.g. mild, moderate, severe)

Describe measures to minimize or prevent these risks (analgesia, monitoring, humane endpoints, etc.)

Monitoring and Responsibilities

Frequency of Animal Monitoring

Responsible Staff

[ ]

Emergency Procedures

[ ]

Ethical Considerations

Describe application of Replacement, Reduction, and Refinement (3Rs)
