

Genomics Research Data Management Plan

1. Project Information

Project Title

Principal Investigator(s)

Institution

2. Data Collection

Types of Data Collected

Estimated Data Volume

Data Formats

3. Data Storage and Security

Data Storage Methods

Backup Procedures

Security Measures

4. Data Sharing and Access

Data Sharing Policy

Access Restrictions

5. Ethical and Legal Compliance

Participant Consent and Privacy

Legal and Regulatory Issues

6. Data Preservation

Long-term Preservation Strategy

Data Retention Period

7. Roles and Responsibilities

Roles and Responsibilities

8. Additional Information

Additional Notes
