

Maritime Environmental Safety Checklist

1. Pollution Prevention

☐ Oil spill response equipment available ☐ Waste segregation procedures in place ☐ Sewage treatment system operating correctly ☐ Garbage management plan implemented

2. Hazardous Substances

☐ Hazardous materials stored securely ☐ MSDS available for all chemicals ☐ Spill kits accessible and complete

3. Ballast Water Management

☐ Ballast water exchange records up-to-date ☐ Ballast water treatment system functional

4. Air Emissions

☐ Exhaust gas cleaning systems checked ☐ Fuel quality complies with regulations

5. Other Environmental Risks

☐ Non-indigenous species control measures in place ☐ Regular leak inspections completed
