

# LNG Carrier Stability Report

## Vessel Details

Ship Name

IMO Number

Voyage Number

Date

Master's Name

## Loading Conditions

Port of Loading

Port of Discharge

Cargo Type

Total Cargo Loaded (m³)

## Tank Details

| Tank No. | Tank Name | Cargo Quantity (m³) | Loaded Percentage (%) | Ullage (m) |
|----------|-----------|---------------------|-----------------------|------------|
|          |           |                     |                       |            |
|          |           |                     |                       |            |
|          |           |                     |                       |            |

## Stability Data

| Parameter   | Value | Unit |
|-------------|-------|------|
| Draft (Fwd) |       | m    |

|                         |  |     |
|-------------------------|--|-----|
| Draft (Aft)             |  | m   |
| Mean Draft              |  | m   |
| Trim                    |  | m   |
| GM (Metacentric Height) |  | m   |
| Heel                    |  | deg |
| Bending Moment          |  | tm  |
| Shear Force             |  | t   |
