

Historic Site Environmental Assessment

1. Site Identification

Site Name

Location / Address

Date of Assessment

Assessed By

2. Description of Historic Site

Brief Description

Historical Significance

3. Environmental Context

Surrounding Environment

Current Land Use

4. Identified Environmental Factors

Factor	Description or Notes
Air Quality	
Water Resources	
Soil Conditions	
Biodiversity	

Noise	
Other	

5. Potential Environmental Impacts

Describe potential environmental risks or impacts affecting the site

6. Mitigation Measures

Proposed actions to reduce potential impacts

7. Summary and Recommendations

8. Attachments / References

List any documents, maps, or sources referenced
