Risk Assessment

Risk Factor	Yes / No	Comments
Is the storage area secure and locked?		
Are pesticides clearly labeled and in original containers?		
Are Material Safety Data Sheets (MSDS) available?		
Is there spill containment (e.g., bunding, absorbent materials)?		
Are appropriate warning and hazard signs displayed?		
Is personal protective equipment (PPE) available?		
Is the area free of leaks or spills?		
Is there adequate ventilation?		
Are incompatible materials stored separately?		
Is there an emergency plan in place?		

Identified Risks & Recommended Actions
