

Geothermal Heat Pump System Inspection Report

General Information

Property Address:

Owner/Contact Name:

Inspection Date:

Inspector Name:

System Details

System Type (Closed/Open Loop):

Manufacturer/Model:

Installation Date:

Capacity (Tons):

Depth/Length of Ground Loop:

Antifreeze Type (if any):

Visual Inspection

Leaks or Corrosion Observed:

Piping and Insulation Condition:

Heat Pump Unit Physical Condition:

Electrical Connections:

Operational Test

Component	Status	Comments
Compressor	<div></div>	<div></div>
Pumps	<div></div>	<div></div>
Thermostat	<div></div>	<div></div>
Fans/Blowers	<div></div>	<div></div>
Controls	<div></div>	<div></div>

Loop Field Check

Ground Loop Pressure:

Circulation Flow Rate:

Temperature Entering/Leaving:

Any Signs of Settlement/Disturbance:

Other Observations

Recommendations

Inspector Signature

Name:
