

# Sustainable Product Evaluation Checklist

## 1. Materials & Resources

- ☐ Product contains recycled or renewable materials
- ☐ Materials sourced responsibly
- ☐ Minimal, recyclable, or compostable packaging used

Notes:

## 2. Manufacturing & Processing

- ☐ Manufactured using energy-efficient processes
- ☐ Waste and emissions minimized during production
- ☐ Produced under fair and safe working conditions

Notes:

## 3. Use & Durability

- ☐ Designed for durability and long-term use
- ☐ Low energy and resource consumption during use
- ☐ Repairable or parts replaceable

Notes:

## 4. End of Life

- ☐ Product is recyclable or compostable after use
- ☐ Take-back or recycling program available
- ☐ Minimal environmental impact at disposal

Notes:

## 5. Additional Comments
