

Biodiversity Impact Assessment Template

1. Project Information

Project Name

Project Location

Assessment Date

Assessment Team

2. Project Description

Summary of Project Activities

Project Area Size (hectares)

3. Baseline Biodiversity

Habitat Types in Project Area

Notable Species (Flora and Fauna)

4. Impact Identification

Potential Impact	Magnitude	Duration	Reversibility

5. Mitigation Measures

Describe proposed mitigation and management actions

6. Residual Impacts

Describe residual impacts after mitigation

7. Monitoring Plan

Monitoring strategies and indicators

8. Conclusions and Recommendations
