

# Sustainable Sourcing Self-Assessment Questionnaire

## Company Information

Company Name

Contact Person

Email

Location

## Policies & Management

Does your company have a sustainable sourcing policy?

If yes, briefly describe the policy

Who is responsible for implementing sustainable sourcing in your company?

## Environmental Management

Do you have any environmental certifications (e.g., ISO 14001, FSC)?

If yes, which ones?

Do you have processes to minimize waste and emissions?

## Social Responsibility

Do you ensure suppliers comply with labor standards and human rights?

Are there health and safety practices in your sourcing process?

## Continuous Improvement

How do you monitor and review sustainable sourcing performance?

What are your key challenges in sustainable sourcing?

What are your targets for improvement?
