## **Government Defense Contractor Security Questionnaire**

## 1. Organization Information

Organization Name:	
Address:	
Contact Person:	
Email:	
Phone:	
2. Facility Converts	
2. Facility Security	
Is the facility FCL (Facility Clearance Level) certified?	
	•
If yes, specify clearance level:	
in yes, specify dedication level.	
Describe physical security measures in place:	
3. Personnel Security	
Are personnel background abooked according to government standardo?	
Are personnel background-checked according to government standards?	
What percentage of employees hold security clearances?	

Encryption methods used for sensitive information:  5. Subcontractor Management  5. Subcontractors undergo security reviews?  Are flow-down security requirements communicated?	Describe ongoing personnel security training:
Do you comply with NIST SP 800-171 or CMMC requirements?  Describe network segmentation and access control policies:  Incident reporting and response plan exists?  Encryption methods used for sensitive information:  5. Subcontractor Management  Do subcontractors undergo security reviews?  Are flow-down security requirements communicated?	
Do you comply with NIST SP 800-171 or CMMC requirements?  Describe network segmentation and access control policies:  Describe	
Do you comply with NIST SP 800-171 or CMMC requirements?  Describe network segmentation and access control policies:  Describe	
Do you comply with NIST SP 800-171 or CMMC requirements?  Describe network segmentation and access control policies:  Describe	
Describe network segmentation and access control policies:  Incident reporting and response plan exists?  Encryption methods used for sensitive information:  5. Subcontractor Management  Do subcontractors undergo security reviews?  Are flow-down security requirements communicated?	4. Cybersecurity
Describe network segmentation and access control policies:  Incident reporting and response plan exists?  Encryption methods used for sensitive information:  5. Subcontractor Management  Do subcontractors undergo security reviews?  Are flow-down security requirements communicated?	Do you comply with NIST SP 800 171 or CMMC requirements?
Describe network segmentation and access control policies:  Incident reporting and response plan exists?  Encryption methods used for sensitive information:  5. Subcontractor Management  Do subcontractors undergo security reviews?  Are flow-down security requirements communicated?	
Encryption methods used for sensitive information:  5. Subcontractor Management  Oo subcontractors undergo security reviews?  Are flow-down security requirements communicated?	
Encryption methods used for sensitive information:  5. Subcontractor Management  Oo subcontractors undergo security reviews?  Are flow-down security requirements communicated?	
Encryption methods used for sensitive information:  5. Subcontractor Management  5. Subcontractors undergo security reviews?  Are flow-down security requirements communicated?	Describe network segmentation and access control policies:
Encryption methods used for sensitive information:  5. Subcontractor Management  5. Subcontractors undergo security reviews?  Are flow-down security requirements communicated?	
Encryption methods used for sensitive information:  5. Subcontractor Management  5. Subcontractors undergo security reviews?  Are flow-down security requirements communicated?	
Encryption methods used for sensitive information:  5. Subcontractor Management  5. Subcontractors undergo security reviews?  Are flow-down security requirements communicated?	
5. Subcontractor Management So subcontractors undergo security reviews?  Are flow-down security requirements communicated?	Incident reporting and response plan exists?
5. Subcontractor Management Do subcontractors undergo security reviews?  Are flow-down security requirements communicated?  5. Additional Comments	<u>,</u>
5. Subcontractor Management Do subcontractors undergo security reviews?  Are flow-down security requirements communicated?  5. Additional Comments	
5. Subcontractor Management Do subcontractors undergo security reviews?  Are flow-down security requirements communicated?  5. Additional Comments	Encryption methods used for sensitive information:
Oo subcontractors undergo security reviews?  Are flow-down security requirements communicated?  C. Additional Comments	<b>7.</b>
Oo subcontractors undergo security reviews?  Are flow-down security requirements communicated?  C. Additional Comments	
Oo subcontractors undergo security reviews?  Are flow-down security requirements communicated?  C. Additional Comments	
Oo subcontractors undergo security reviews?  Are flow-down security requirements communicated?  C. Additional Comments	
Oo subcontractors undergo security reviews?  Are flow-down security requirements communicated?  C. Additional Comments	5. Subcontractor Management
Are flow-down security requirements communicated?  5. Additional Comments	<b>3</b>
Are flow-down security requirements communicated?  5. Additional Comments	Do subcontractors undergo security reviews?
6. Additional Comments	· ·
6. Additional Comments	
6. Additional Comments	Are flow-down security requirements communicated?
